## About us :-

B.K Ceramic Industries, established in the Year 2010. We are one of the leading manufactures and suppliers of the Stoneware Pipes and Fittings. The factory is situated at Jhajjar Rohtak Road, Village Birdhana, Distt. Jhajjar(Haryana) and is fully equipped with all the infrastructures, Plant and Machinery, Laboratory and state of the art Moulds to produce the goods of high quality to the satisfaction of our clients.

The Company is registered with Micro, Small and medium Enterprises, Haryana and possesses the valid I.S.I. License to manufacture and supply SW Pipes and Fittings. The Company is fully equipped with inhouse fabrication team to develop and manufacture Stoneware Pipe.

With the support of our state-of-the-art manufacturing unit and dexterous workforce, we are able to supply superior quality product line, which is in conformation with the international quality norms. With the help of our wide distribution network and transportation facilities, we are capable to dispatch the bulk orders of our range within the stipulated time frame. Our uncompromising attitude towards achieving supreme level of quality has enabled us to widen our market base immensely

## Stoneware Pipe :-

The stoneware pipes are used in sewerage systems. Apart from this it is used in many other industries like drainage, irrigation and these pipes are also used in chemical industry for transporting the highly corrosive chemical. Stoneware pipes are made of clay. The stoneware pipes manufactured by us contains high quality material, which makes it durable and long lasting. The Stoneware pipes are manufactured by a process by firing & baking at 1100\*c and later on proceed for salt treatment and finally left in space for curing.

## Why Stoneware Pipes:-

- Stoneware pipe has very long life more than 100 years
- Stoneware pipe is baked in kiln at about 1100\*c, So it does not have impact of weather, heat and fire.
- Stoneware pipe chemically inert providing built in protection against any loss of strength. It does not require any lining or protective coating
- Ensures a leak proof connection and excellent flow line
- Stoneware pipe is a rigid material and not subject to deflect or flatten under load.

## Quality Assurance :-

The products manufactured at our works are tested for quality at every stage. We are very committed to supply products of the most appropriate quality according to the requirement of the industry. Stoneware Pipe Manufactured by us is as per Indian Standard 651 as amended in 2007 issued by Bureau of Indian Standards. We are holding valid ISI License for manufacturing SW Pipe.

We never compromise on quality. We always ensure that the products are as per relevant specifications in all respects before we ship the products to the customer's place or worksite.
